KAISHO, Maina	SA Rehab	SA Rehab	Equine Med	Equine Med	FA Med		FA Med	Equine Sx	Equine Sx	Equine Sx

Farm Animal Medicine

Pathology

Difference between Kitasato Univ. and Univ. of Tennessee
at necropsy

Kitasato

- Only one animal at a time
- Farm animals (cow, horse, pig, sheep and goat) and Pet animals (dog and cat)
- Vets do necropsy, and students help that.

Tennessee

- Many animals at same time
- Farm animals, Pet animals, and even Wildlife
- Students do necropsy, vets teach and help that

Small Animal Rehabilitation

-Water Tread Mill-

- Walk a patient in water to shoulder by moving floor.
- A patient's body float with buoyancy, so a patient is easy to walk.
- But a patient use more energy to walk than on land

Small Animal Rehabilitation

Wednesday August 29
Thursday August 30

Equine surgery

1. Paraphimosis

2.ethmoid hematoma

3. melanoma

4. Osteoma

4. Osteoma

4. Osteoma

5. Teeth treatment (by Equine medicine)

6. Remain the roots of teeth

6. Remain the roots of teeth

Friday August 31

equine medicine

castration (by equine surgery)

And teeth treatment

Rectal palpation practice

case presentations

Small Animal Soft Tissue Surgery

I saw five surgerys here.

① PSS (Portosystemic shunt)

Vascular shunt

Amyloid ring

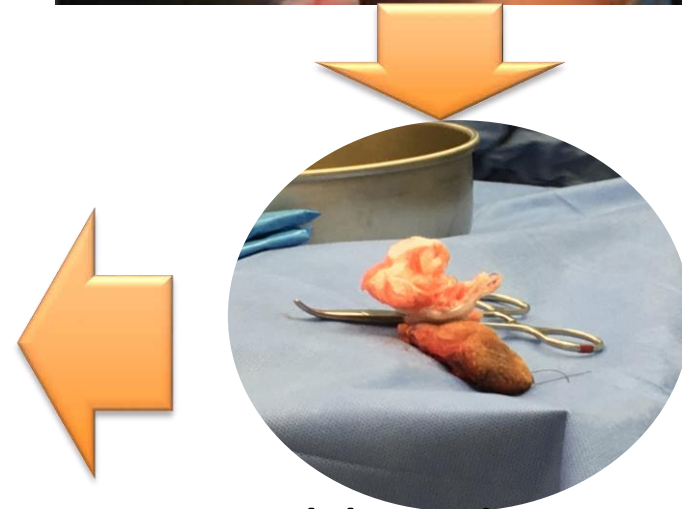

He was only 5 months old.

② Sarcoma right elbow

Skin flap

Ablated mass

③ Mass on ventral neck

He was difficult to breathe then because of growing mass .

Ablated neck mass

Dermatology

Case1: Mosquito bite hypersensitivity in cat

Nose bridge

On the ear

Mosquito bite hypersensitivity in cat is a visually distinctive allergic skin disease.

Case2:Pemphigus foliaceus

Hair less bridge of nose , neck ,and back

Calcinosis cutis

This day, doctor did urine cultivation , because urine on steroid is dilution and reducing inflammation.

Ophthalmology

I saw three treatment here.

①② Cataract surgery

before

after

③ 2 small masses on eyelid

Mass on eyelid

Tumor ablation by laser

These masses were ablated by laser.

after
